Subject: Tomorrow's Ft. Rich Ceremony

Governor,

I wanted to draw your attention to an item on tomorrow's agenda for the Fort Richardson Memorial Ceremony. Fort Rich officials would appreciate it if you'd arrive at the gate at 9:35 (or 9:40 at the latest) so that you could spend a few minutes (5-10 at the MOST) with General Stephen Layfield before heading out to the event (Bob will meet you and get you through the gate and to the exact location of the event, as well as to where you would meet the general...I've included directions, too, just in case). This is proper protocol, for the two highest ranking officials to meet beforehand. The two of you will head out to the event at approximately 9:55 – again, protocol requires that only you and the General walk down the center lane to the event (everyone else will approach on the perimeter).

Also, I've triple-checked, and your role is to attend only – I have provided brief remarks for you, just in case. Please let me know if you have any questions at all. Thanks so much,

Kate Morgan

Governor,

Ann Ringstad, vice-chancellor of UAF has requested below a letter of support from you for Gov Stepovich's nomination to receive an honorary doctorate. If you are interested in nominating Gov Stepovich, draft a letter for your review this week. The nominating committee meets in 10 days to make a final decision. Ann's email is below.

Subject: Governor Mike Stepovich HDR nomination for 2009

Dear Ivy,

I respectfully request Governor Palin to consider writing a letter of support for Governor Mike Stepovich's nomination for an honorary doctorate from the University of Alaska Fairbanks. Since we will be in the middle of celebrating our 50th anniversary of statehood next year, it would be wonderful to have Governor Stepovich receive this honorary degree during this time period.

I am attaching my letter of nomination as background.

The nominating committee will be meeting on May 25th, so time is of the essence here. The letter should be sent to:

HDR Nominating Committee

University of Alaska Fairbanks

Office of the Provost

PO Box 757580

Fairbanks, Alaska 99775

(Attn: Sarah Lewis, Academic and Faculty Services Manager)

Sarah's email is: fnskl@uaf.edu <mailto:fnskl@uaf.edu>

Thank you very much for your consideration of this request., and she can be reached at: 474-5178

Best regards,

Ann Ringstad

Web mail from: Mr. Kenneth Carlin

address: 5200 Sam\'s Circle Wasilla AK 99654

MESSAGE:

May 15, 2008

5200 Sam's Circle

Wasilla, AK 99654

Governor Sarah Palin

Anchorage Office

550 West 7th Avenue, Suite 1700

Anchorage, AK 99501

Dear Governor Palin:

Mr. Kenneth Carlin, my uncle, and mother's brother, who lives in Wasilla does not have email access, so he suggested that my mother (Jackie Simonelli) and I email you regarding treatment for your son Trig, who was diagnosed with Down's Syndrome. I'm Tony Simonelli, Mr. Carlin's nephew, who found out about your son in a recent article in the Washington Post dated May 10th entitled "What Is Normal and What is Perfect: Governor, Mom Talks About Son."

My mother, Jackie, and I wanted to pass along some information about treatment for Down's Syndrome that we think would be beneficial for Trig. It's about the Institutes for the Achievement of Human Potential (IAHP) which is a non-profit organization in Philadelphia, PA. IAHP has had great success treating brain-injured children - including children with Down's Syndrome. I was on IAHP's Program and it greatly improved my cerebral palsy and vision problems.

Here is some background on IAHP. It was started by Glenn Doman in 1955. The Institutes teaches parents how to treat their children at home. Children are evaluated at IAHP in Philadelphia, and a complete program of neurological organization is designed for the family and the brain-injured child. The family is taught about the program and returns home to carry out the program on the brain-injured child. The goal of the program is to give each child a fighting chance to be well (have normal age-related neurological function) no matter how severely the child may be brain-injured. For a more complete background I highly recommend reading the book:

What To Do About Your Brain-injured Child: Or Your Brain-damaged, Mentally Retarded, Mentally Deficient, Cerebral-Palsied, Epileptic, Autistic, Athetoid, Hyperactive, Attention Deficit Disorder (Pub. 2005, by Glenn Doman.) It's out in both hardcover and paperback, and it's available in most bookstores and Amazon.com .

Also, it would be helpful to check out IAHP's website www.iahp.org for more information on the program's success with children with Down's Syndrome. The contact information for IAHP is the following -

PH# (215) 233-2050, Email is institutes@iahp.org .

If you contact IAHP ask to speak to Doug or Janet Doman, (Glenn Doman's son and daughter), and mention my name (Tony Simonelli).

Now, I will introduce my mother (Jackie Simonelli), and she will let you know how she found IAHP and how I ended up on the successful Program:

(The following is from my mother, Jackie Simonelli) -

[Dear Governor Palin:

I would like to add how and why we used the program of IAHP. Our son, Tony, was born 2 1/2 months premature and his lungs were not fully developed (lacked surfactant) in what is called medically Hyaline Membrane disease (which is what the John F. Kennedy baby had but died). Drs. said the surfactant would kick in, in 72 hours and he would be okay, but he took a big breath on his second day and blew a hole in his right lung which caused loss of oxygen to his brain at that time (hypoxia). He weighed 4 lb. 5 oz. which helped but, Tony had to stay in the hospital for 2 months before we could bring him home. This loss of oxygen to his brain caused him vision problems plus cerebral palsy. When Tony started to crawl, we noticed he would drag his right leg, plus his eyes were crossed (strabismus). I met a woman whose son was on the IAHP program and she suggested I write them about Tony's

birth history. IAHP wrote back and suggested we come to Philadelphia for a consultation. We did and

the rest is history - Tony was on their program for approx. 3 ½ years and improved with each year (in grade school he played little league baseball, soccer, and basketball (not the best player, but he loved it none the less.) He is now 32 years old, went to U.C. Berkeley as a Chancellor's Scholar, graduated Phi Beta Kappa, Magma Cum Laude, and with Highest Honors in Political Science. He went on to U.C. Berkeley School of Law (Boalt) and graduated in the top third of his class of 350 law students.

We hope you will be able to read the book What to do About Your Brain Injured Child, as well as IAHP's website (www.iahp.org) and gain information that might be helpful and beneficial to you and your family.]

We wish you all the best,

Sincerely,

Jackie and Tony Simonelli

Subject: March of Dimes/March for Babies Saturday Event

Governor,

Kelly can give you further detail on this, but Senator McGuire is unable to attend the bill signing and has strongly requested/insisted that we hold off for another date. The bottom line is, we will not have a bill signing at the MOD walk.

The plan the sponsors hope you'll adopt is to be the last speaker before the walk begins, offer brief remarks, and then lead the walk with two families (one of which is the Kolendo family from Wasilla) who have received assistance from MOD. What I need to know from you is, would you like to only do the walk, or would you be willing to offer a few brief remarks, as well?

Subject: Transportation

Web mail from: Skip Elliott

address: 580 Seater St. Juneau AK 99801

MESSAGE:

Dear Gov. Palin,

I want to thank you for your efforts to return Alaska to the days when "statesmen", not "bring home the bacon" politicians served Alaska (as opposed to themselves.) This is particularly important during times of plenty, and I commend you. Not since Sen. Alriss Sturgulewski told me twenty years ago (back when I was Skagway Mayor) that she almost regretted Alaska's oil wealth because it had destroyed political cooperation, have I heard one of our prominent elected officials express such common-sense fiscal prudence. In particular, I applaud your attempts to restrict capital fund expenditures to projects that address statewide, not just local, problems. Plus, I appreciate your attempts to use current, probably short-lived, income surpluses to address Alaska's future fiscal operating obligations.

So, I was greatly pleased to read in a recent Juneau Empire article that your office was quoted, as follows, regarding the Juneau Access Road: "It does not make sense to go out to bid for part of a road when there is pending litigation and the outcome of that litigation could change the whole scope of the project or not allow it at all." Even ignoring the potential litigation, I believe that you fully appreciate the imprudence of starting a costly project before funding is fully in-hand. In this case, substantial financial resources would be diverted from other Alaskan projects for several years in order to construct a parallel, transportation system with a very dubious cost/benefit ratio. As the owner of an investment advisory business, I can say with complete confidence that if a fraction of the necessary construction costs were placed into a Transportation Endowment

Fund, the earnings alone would be sufficient to pay for the plane and ferry tickets for all travelers in Upper Lyn

n Canal for many decades.

Again, I applaud your fiscal restraint and your prudence in not committing to this road project. However, I also hope that you understand that transportation is indeed an important issue in Juneau. I travel monthly between Juneau and Skagway and certainly welcome a fast, reliable option. I am very pleased that your administration has taken some good, initial steps to improve ferry scheduling. In my opinion, regularly scheduled, fast ferries in North Lynn Canal would satisfy nearly everyone's traveling needs. The main opposition, however, seems to come from DOT/PF itself, not the traveling public. That opposition would largely disappear, if only the Marine Highway System did not comprise so much of their State-funded operating budget. Therefore, in the interest of leveling the playing field at DOT/PF, I ask that you lobby our federal delegation to allow the Alaska Marine Highway System to utilize federal highway capital and operational funds according to the same formulas availa

ble for regular highway systems. If successful, you could upgrade and operate the Alaska Marine Highway System using federal funds, and more easily and fairly weigh such upgrades against other transportation projects of statewide interest. Let's take departmental, budgetary politics out of such decisions.

Keep up the good work.

Sincerely,

Skip Elliott Juneau, AK

MESSAGE:

Dear Governor,

No doubt someone else reads this e-mail for you, but I just want to say I'm proud to live under your governorship. As one who takes little interest in politics, I recognize, oddly but seriously, that "you're a regular person". You do your job while living as normal a Life as the rest of us. Congratula-tions on the birth of your son. Keep up the good work. Warmly, Lyn Barela

If I finish up something here I'm re-writing in short order I'll be able to get over to Cpt Ck before you leave- don't wait for me but I'll pop in if I hustle. (I'm still in Wasilla).

Hickel is our friend, I know you know that... I want him to understand we only have AK's best interest in mind. I wish I could wave a magic wand and allow for an AK line to be built. If he can be made to understand our position would he attend our presser on AGIA next week? It may take a miracle to get him there and get him understanding that AGIA isn't a mistake - but it would be huge if he could show support after we reassure him that the door isn't closed to a bullet line, to exporting overseas, etc... all this within AGIA even.

Subject: Alaska Teachers

Grand Canyon University is pleased to extend a scholarship opportunity to **Alaska teachers** interested in earning their first or second Masters degree. ***A scholarship of $1,000 will be offered to educators, and the $100 application fee will be waived for the upcoming Summer and Fall&nb sp;semesters.***

You may also be eligible for financial aid and the Title I loan cancellation program to help pay for school. Educators teaching in Title I schools may be eligible to cancel up to $5,000 off a Federal Student Loan.

Choosing to pursue your Masters degree in Education is a huge decision. As a teaching professional, you know earning an advanced degree will have a direct impact on your career. I am here to assist you in determining if Grand Canyon University is a good fit for you, as well as help you decide which program will help you achieve your educational and professional goals.

Grand Canyon is consistently ranked one of the top Masters in Education degree granting Universities in the United States. OEDb's Online Education Ratings ranked Grand Canyon University best of class. The OEDb link is as follows: http://oedb.org/rankings .

Grand Canyon University's main campus is located in Phoenix, Arizona. The university is Regionally Accredited through the North Central Association for the Higher Learning Commission. All Education programs are 100% online for those teachers needing a more flexible and convenient way to pursue higher education.

Please feel free to share this information with other educators in your district who are also in need of their Bachelor's or Master's degree in Education. The ability to share books and work with a cohort of fellow educators provides not only support but can also save you money.

We offer many different Education programs that teachers can complete 100% online. Completion time is 18 to 30 months.

For more information on the programs, Title One Loan Cancellation, and

theAlaska scholarship, please click the link below or cut and paste the address into your web browser:
http://www.gcu.edu/ec/lgrossman

If you are ready to apply for admission and the scholarships still available, please click this link please or cut and paste the address into your web browser:https://secure.mastersonline.com/application/frmlogin.asp?molid=191

You must contact Lauren Grossman in order to receive the Alaska scholarships. There are a limited number of scholarships available. Individuals that request information through the general website will not qualify for the scholarships. Scholarships are for new students only.

Warmest Regards,

Lauren K Grossman

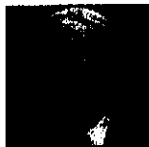
Keeping Score on Climate Change Proposals

By Tom Donohue


Only a real policy wonk could hope to sort out the dizzying array of complex proposals to address global climate change--cap-and-trade, emission credits, carbon sequestration, etc. But regardless of how complicated the problem is, decisions on how to deal with it cannot be left to Beltway bureaucrats and bean counters alone. The American people must educate themselves and weigh in on the debate.

As you read and hear about the literally dozens of different proposals to combat climate change, you might consider evaluating those plans by asking yourself a few simple questions.

Please feel free to forward this bulletin to your colleagues.

1. **STEEL DYNAMICS' OMNISOURCE TO BUY RECYCLE SOUTH LLC FOR $505 MILLION**

Steel Dynamics Inc. subsidiary OmniSource Corp. will acquire Recycle South LLC, a large, regional scrap metal recycler in Spartanburg, S.C. for about $505 million. Under the terms of the transaction, OmniSource, which already owns about 25% of

Recycle South, will pay $232 million in cash to Recycle South shareholders, who will also receive 3.938 million shares of Steel Dynamics common stock valued at $138 million. OmniSource will also assume certain liabilities, including net debt of about $135 million at closing. Recycle South, which employs approximately 600 people at 19 locations in the Carolinas and Georgia, was formed in August 2007 through the merger of Carolinas Recycling Group and Atlantic Scrap and Processing. Recycle South generated revenues of about $670 million from the processing of about 1.4 million tons of ferrous scrap and 150 million pounds of non-ferrous scrap over the 12-month period ending on March 31, 2008. OmniSource, which was acquired by Steel Dynamics in October 2007, processes scrap metal at 50 locations in the eastern United States and Canada...**Read More »**

2. **EXPERTS HIRED TO REBUFF CASELLA LANDFILL EXPANSION**

It is a sign of growing hostility to landfills, especially in the northeast, that opponents of a landfill in Southbridge, MA, operated by Casella Waste, have hired experts to fight plans to import more waste. The group, which calls itself Southbridge Community Connections, hired experts in environmental health and justice. David O. Carpenter, professor at the Environmental Health and Toxicology Division at the University of Albany's School of Public Health in New York said biodegradable materials from municipal solid waste is "much worse" than construction waste. Environmental justice lawyer Veronica Eady, with New York Lawyers for the Public Interest, took issue with increased exhaust from diesel trucks which has been linked to asthma and heart disease...**Read More »**

3. **FEDERAL PROBE IN CONNECTICUT YIELDS ANOTHER GUILTY PLEA**

There has been yet another guilty plea in the ongoing federal probe of pricing fixing in western Connecticut and eastern New York. This time, a former top salesman for Automated Waste Disposal, the company at the center of the investigation, named Richard Galletti admitted that he asked his state trooper cousin to check the ownership of cars thought to be federal surveillance vehicles. According to the indictment, Galante, Galletti and their co-defendants are accused of conspiring to set up a "property rights system" under which carters divide customers and agree not to compete in order to artificially inflate prices...**Read More »**

4. **WASTE INDUSTRIES COMPLETES TRANSACTION TO GO PRIVATE**

Waste Industries USA announced that as of May 9, it has completed its previously announced transaction to go private. The transaction was led by an investor group consisting of founder and Chairman Lonnie C. Poole, Jr., President and CEO Jim W. Perry, and financial partners Macquarie Infrastructure Partners and Goldman Sachs. Shareholders approved the deal at a special meeting held on May 8...**Read More »**

5. **BFI CANADA REPORTS STRONG FIRST QUARTER RESULTS**

BFI Canada said that bottom-up operational strategies and an intensified focus on growth opportunities helped increase first quarter revenues by 20.8% year over year. Even without the effects of currency translation, fuel and environmental surcharges, revenues increased by 13.3% in Canada and 6.2% in the U.S. Higher interest expense and other financial expenses led to a slight decline in earnings (Canadian $) to $8,776, or $0.15 per unit, from $10,365, or $0.19 per unit in the same period last year...**Read More »**

6. **VIRGIN ISLANDS ESTABLISHES E-WASTE COLLECTION**
The U.S. Virgin Islands agreed to set up facilities for the collection of discarded consumer electronics products and other waste after being fined almost $37,200 for violations of the Environmental Protection Agency's hazardous waste rules. The EPA said its inspections found that computers and other waste were being discarded without efforts to minimize or prevent release of mercury, lead and other hazardous materials...**Read More »**

7. **ENERGYSOLUTIONS POSTS REVENUE OF $502 MILLION IN FIRST QUARTER**
Nuclear waste services company EnergySolutions Inc reported profit for the first quarter of 2008, helped by higher revenues. Net income for the first quarter was $19.3 million or $0.22 per share, compared to a loss of $10.3 million in the prior year quarter. That exceeded analysts' expectations. Earnings would have been even higher ($23.8 million or $0.27 per share) without the impact of non-cash amortization of intangible assets. The company's revenues increased to $502 million from $114 million in the same quarter last year. For the year ahead, the company still expects earnings of $0.69 to $0.74 per share and earnings before the impact of non-cash amortization of intangible assets of $0.89 to $0.94 per share on revenue of $1.8 billion to $1.9 billion...**Read More »**

8. **ENGLOBE REVENUES AND EARNINGS DOWN**
EnGlobe Corp., an environmental services company based in southern Ontario, reported that its first quarter loss more than doubled to $3.9 million, ($0.05) per share, from $1.9 million, ($0.02) per share. Revenues fell to $24.3 million from $26.8 million. The company has made acquisitions and appointed new management realign operations...**Read More »**

9. **AVALON HOLDINGS REPORTS FIRST QUARTER LOSS**
Waste management firm Avalon Holdings recorded a drop in first quarter revenues and profits. Revenues decreased to $10.4 million from $11.3 million in the first quarter of 2007. Profits declined to a net loss of $60,000, or a loss of $.02 per share, from net income of $352,000 or $.09 per share for the first quarter of 2007...**Read More »**

10. **GREENMAN TECHNOLOGIES REPORTS SECOND QUARTER RESULTS**
Tire recycler GreenMan Technologies said that a recent acquisition helped increase revenues and volume but also added considerably to SG&A expense, resulting in a widened loss for the three months ended March 31...**Read More »**

I didn't see your names on the distribution list for Sam Bishop's summary of Secretary Kempthorne's press conference, which Sam attended. Hence, the summary is attached. It will give you a good sense of the ebb and flow.

Dear Sarah! Thank you so much for the card for Evangelos. We most **definitely** will enjoy it. I wish you wouldn't have spent any money on me (us) or gone through the trouble!!!
Also, thank you for your loyal support of Joe. I think truth will prevail and he will have a chance to put the facts on the table for all to see his good direction.
You are truly a great leader, I'm so proud that Joe is serving under you!
Love and thanks again to you and your family.
Sandra

Subject: FW: Governor Mike Stepovich HDR nomination for 2009

Governor,

Ann Ringstad, vice-chancellor of UAF has requested below a letter of support from you for Gov Stepovich's nomination to receive an honorary doctorate. If you are interested in nominating Gov Stepovich, draft a letter for your review this week. The nominating committee meets in 10 days to make a final decision. Ann's email is below.

Subject: Governor Mike Stepovich HDR nomination for 2009

Dear Ivy,

I respectfully request Governor Palin to consider writing a letter of support for Governor Mike Stepovich's nomination for an honorary doctorate from the University of Alaska Fairbanks. Since we will be in the middle of celebrating our 50th anniversary of statehood next year, it would be wonderful to have Governor Stepovich receive this honorary degree during this time period.

I am attaching my letter of nomination as background.

The nominating committee will be meeting on May 25th, so time is of the essence here. The letter should be sent to:

HDR Nominating Committee
University of Alaska Fairbanks
Office of the Provost
PO Box 757580
Fairbanks, Alaska 99775

(Attn: Sarah Lewis, Academic and Faculty Services Manager)

Sarah's email is: fnskl@uaf.edu

Thank you very much for your consideration of this request., and she can be reached at: 474-5178

Best regards,

Ann Ringstad

Subject: March of Dimes/March for Babies Saturday Event

Governor,

Kelly can give you further detail on this, but Senator McGuire is unable to attend the bill signing and has strongly requested/insisted that we hold off for another date. The bottom line is, we will not have a bill signing at the MOD walk.

The plan the sponsors hope you'll adopt is to be the last speaker before the walk begins, offer brief remarks, and then lead the walk with two families (one of which is the Kolendo family from Wasilla) who have received assistance from MOD. What I need to know from you is, would you like to only do the walk, or would you be willing to offer a few brief remarks, as well?
